- ▶ AQUOS-LINK FOR EASY OPERATION VIA HDMI (CEC STANDARD, ARC FUNCTION), GUI-ALL BRAND REMOTE FUNCTION
- ▶ LOW POWER CONSUMPTION (~ 0.5 W IN STANDBY MODE)

Join the 3D-World with Sharp's latest BD-Player!

The new BD-HP35 is an extremely compact, but even though a fully featured 3D-Blu-ray player. Via the small WLAN dongle the device connects you easily with the internet for YouTube streaming and various DLNA functions. 2 USB-Hosts (front and rear side) give you all flexibility in terms of connectivity.

The BD-HP35 ensures full compatibility with DIVX-HD, H.264, MKV, JPEG and MP3 files. Even playback of AVCHD format from your camcorder is possible. The AQUOS-Pure-Mode function will automatically adjust the best picture quality whenever connecting with a Sharp AQUOS LCD-TV via HDMI cable. The new Sharp-Super-Picture function will improve the videostream playback quality of video files of a connected USB-Memory stick.

Supporting the latest high-end sound standards, such as DTS-HD Master Audio Essentials and Dolby TrueHD, the BD-HP35 provides Full-HD sound impression to your Full-HD 3D picture.

## AREA SPECIFICATIONS

- ▶ DVD Region Code: **2**
